REPORT OF FOREST FIRE WARDENS

In the past year your local forest fire organization did a very fine job of pre-suppressing and suppressing of forest fires. Our early spring was very dry and with extra high winds and all our fires were during that period. We find that the general public is still very careless with matches and cigarettes.

In the "Keep America Green" program there is a story of two bad boys who cause most of our forest fires. The first one we call, "I don't care," he is the person that builds fires anywhere, never gets a permit to burn brush or has a safe place for his home incinerator. He is also very careless with matches and cigarettes. The other one is called, "I don't know any better," and the best way to describe him is a plain dunce. It is only with your help that these two bad actors are controlled. Their carelessness can be the cause of our pretty and valuable woodland to be destroyed by fire. Even your own home can be burned by them.

It is up to you and you alone to report these characters to your local forest fire warden whenever you see them operating. To have our woodlands green and our mountain streams clear, your cooperation is needed by:

1. Seeing that your incinerator is tight and is sitting on clean ground.
2. Always clean a space about any open fire to prevent it from spreading.
3. Never burn in dry, windy weather.
4. In all cases a written permit is required from your local town fire warden.
5. Be sure that your matches, cigarettes and pipe ashes are out before discarding.

It is with your cooperation that this shameful waste of timber and money can be stopped.

This is to certify that we have examined the books, vouchers, bank statements and other financial records of the treasurer of the school district of Sharon, N. H., of which the above is a true summary for the fiscal year ending June 30, 1951 and find them correct in all respects.

Some explanation of the budget items is in order.

1. Because three pupils moved into Sharon during the past summer the original estimate for tuition for 1951-52 of \$2000 appears to be \$490 less than the actual cost is now expected to be. For the same reason of increased enrollment the transportation cost is expected now to be \$63 above the estimate made a year ago. These two items are responsible for the request that an additional appropriation of \$255.12 be made at this March meeting so all 1951-52 obligations can be met before June 30.

2. In the budget for 1952-53 the items for transportation and tuition are substantially higher than for previous years because (1) the tuition rates have increased, and (2) it is expected there will be two Sharon pupils in high school and fifteen in grades 1-8 next year as compared with a total of fourteen this year.
